

## About the Authors

**David Koranyi** is a Non-Resident Fellow at the Johns Hopkins SAIS Center for Transatlantic Relations. His research is on central European and transatlantic energy security issues. He served as the chief foreign policy and national security advisor to the Prime Minister of the Republic of Hungary, Gordon Bajnai, in 2009-2010. He worked in the European Parliament as chief foreign policy advisor and head of cabinet of Hungarian MEP Csaba Tabajdi between 2004-2009. Previously he was a political advisor at the Hungarian National Assembly and a junior researcher at GKI Economic Research Institute, a Hungarian research firm. He pursued undergraduate studies in political economy and business administration then obtained a Master's degree in International Relations and Economics, with a major in Foreign Affairs. He also studied law for 8 semesters. He has published articles and essays on energy security, Hungarian and U.S. foreign policy, European integration, the western Balkans and the United Nations. He is a regular speaker at international conferences on foreign and security policy and energy security. He was a member of the Hungarian NATO Strategic Concept Special Advisory Group and a recipient of the German Marshall Fund's 2010 Marshall Memorial Fellowship.

**Reinis Aboltins** is a European policy researcher specializing in energy policy at the Centre for Public Policy PROVIDUS, which he joined at the end of 2009. He has written on national, regional and EU energy policy, including, but not limited to energy policy planning, outstanding energy policy issues, European energy legislation, energy islands in the EU as well as climate issues. Prior to his current position he spent four years as the public affairs director of Baltic Communication Partners, a private public relations and public affairs company. During this period he developed his specialization in energy policy, energy security and EU-Russia relations. He initiated and produced a first-of-its-kind bi-monthly electronic journal on energy issues, supported by Latvia's national energy incumbent *Latvenergo*. Over the course of four years he wrote more than 80 articles and reviews on energy issues in Latvia, the Baltic states, the EU and other regions of the world. Previously he worked for the UNDP Latvia; and served as adviser to the State President as well as to the Head of the

Naturalization Board, Director of Social Integration Department at the Latvian Ministry of Justice. He is co-author of the energy chapter of the Latvian national long-term sustainable development strategy *Latvia 2030* and also co-author of civil society chapter of the framework document for the social integration–national program *Integration of Society in Latvia*. He is a frequent speaker and moderator at local and international events on energy, climate, sustainable development and human rights. He holds a European Masters degree in Human Rights and Democratization from the University of Padova in Italy and the Raoul Wallenberg Institute of Human Rights at the Lund University in Sweden, as well as a BA in political science from the University of Latvia.

**Kornel Andzsans-Balogh** is an energy market researcher who works as Research Associate at the Regional Center for Energy Policy Research (REKK) at the Corvinus University of Budapest. He conducted market analyses of the central and southeastern European gas markets and participated in the REKK's central and southeastern European security of supply project, where his research focus was mid- and long-run security of supply assessment and developing regulatory risk measurement tools. His interests are eastern European natural gas markets and CIS producers. Currently he is conducting research on economic incentives of biomethane injection into natural gas grids. The research grant is provided by the German Federal Environmental Foundation (Deutsche Bundesstiftung Umwelt—DBU). He holds an MA in Economics from the Corvinus University of Budapest.

**Pál Belényesi** is a competition lawyer with a history of working for the European Commission and national competition authorities. He currently leads a strategic consulting firm in Hungary, while teaching part time at the Florence School of Regulation at the European University Institute. In the past he was a visiting lecturer at the University of Verona and the University of Debrecen. He received his law degree from the University of Debrecen, specialized at the University of Antwerp, and completed his studies with an LL.M. at the European University Institute in Florence. He is the author of several academic articles, monographs, and a co-author of a book. He will complete his PhD in 2012 on water pricing and environmental regulation.

**Mihaela Carstei** is the Associate Director of the Energy and Environment Program at the Atlantic Council, specializing in infrastructure development, bilateral energy relations, emerging energy technology, and policy related to energy and the environment. Prior to joining the Atlantic Council, she conducted research on peace education as a graduate assistant to Syracuse University Professor Peter Castro; and on U.S. economic, foreign, and energy policies for Syracuse University Professor Stuart Brown. Previously, she developed research reports for the Montana World Trade Center at the University of Montana. She is a PhD. candidate in International Economics at the Academy of Economic Studies in Bucharest, Romania. She completed her M.A. at Syracuse University's Maxwell School of Citizenship and Public Affairs with a concentration in International Environmental Policy and Global Markets. She holds a B.S. in International Business and Management from the University of Montana, and a B.A. in Cybernetics and Economic Forecast from the Academy of Economic Studies. She was a fellow of the Soros Foundation/Open Society Institute Program in 2002-2003.

**András Deák** is a Research Director at the Center for EU Enlargement Studies, Central European University. Between 2007 and 2009 he served as Executive Director of the Hungarian Institute of International Affairs. From 1998 he was a researcher in charge of post-Soviet affairs at the Teleki László Institute, Budapest. He has held several seminars on Contemporary Russian Politics and International Energy Policy at the Budapest Corvinus University. He received his MA and Ph.D. in International Relations from the University of Economic Sciences in Hungary.

**Nikolas Foster** is a Communication Specialist at the Pacific Northwest National Laboratory (PNNL) in Richland, Washington, one of ten U.S. Department of Energy (DOE) national laboratories managed by DOE's Office of Science. At PNNL, he supports the Electricity Infrastructure Division within the Energy and Environment Directorate. His work focuses on promoting PNNL's grid-related research. He is the communications lead for the Pacific Northwest Smart Grid Demonstration Project, the largest regional smart grid demonstration in the United States. Previously, he worked as a consultant for the World Bank's Energy Sector Management Assistant Program (ESMAP). At ESMAP, he worked on researching best practices in

Low-energy Building Standards for the Energy Efficient Cities Initiative Program (EECI). He has an M.A. in Energy and Environmental Policy and International Economics from the Paul H. Nitze School of Advanced International Studies (SAIS) in Washington, DC. While at SAIS, Nikolas worked at the Center for Transatlantic Relations as a research analyst supporting Director Dan Hamilton on the *Transatlantic Economy* series, as well as *Europe 2020: Competitive Or Complacent?* Together with Hamilton he authored the chapter “The Obama Administration and Europe,” in the EUISS publication *The Obama Moment—European and American perspectives* (2009).

**Tamás Kenessey** is a lawyer working as the head of cabinet of a Hungarian Member of the European Parliament. He is responsible for a wide variety of subjects including energy, environmental policy, climate change, management of natural resources and external energy policy in EU-China and EU-Russia relations. Previously he worked as the secretary general of a nine-strong political group in the European Parliament, responsible for horizontal coordination of legislative activity. He was involved in the political and legislative process leading to the adoption of the EU’s energy and climate package. He is currently responsible for the political and administrative management of two research projects mandated by the European Parliament, one on the methanol economy and the other on the sustainable use of natural resources. He obtained a Masters Degree in Law at the Eötvös Lóránd University, Faculty of Law, Budapest, with a special focus on international public and civil law, European community law and public administration.

**Taras Kuzio** is a Non-Resident Fellow at the Center for Transatlantic Relations of the Paul H. Nitze School of Advanced International Studies, John Hopkins University. Previously, he was an inaugural Austrian Marshall Plan Foundation Fellow at CTR. He has been a Visiting Professor at the Institute for European, Russian and Eurasian Studies, Elliott School of International Affairs, George Washington University and Senior Research Fellow in the Centre for Russian and East European Studies at the University of Birmingham. His previous positions have included a Resident Fellow at the Centre for Russian and East European Studies, University of Toronto, and Adjunct Research Professor, Institute for European and Russian Studies, Carleton University, Ottawa. He also served as Head of Mission of the NATO Information

and Documentation Centre in Kyiv, Ukraine. He is the author and editor of 14 books, including *Theoretical and Comparative Perspectives on Nationalism* and *Ukraine-Crimea-Russia: Triangle of Conflict*, both published in the *Soviet and Post-Soviet Politics and Society series* by Ibidem-Verlag, 2007. He is the author of 5 think tank monographs and 25 book chapters, the most recent being 'Civic Nationalism and the Nation-State: Towards a Dynamic Model of Convergence' in Ireneusz P. Karolewski and Andrzej Marcin Suszycki eds., *Nationalism in Contemporary Europe* (Banham, MD: Roman and Littlefield, Lexington Books, 2009) and 'Ukraine. Muddling Along' in Sharon L. Wolchik and Jane L. Curry eds., *Central and East European Politics: From Communism to Democracy, Second Edition* (Banham, MD: Roman and Littlefield, 2011). He has authored over 60 scholarly articles on post-communist politics, Ukraine, and nationalism and has guest edited 6 special issues of academic journals, including a recent issue of *Communist and Post-Communist Studies* on 'Communist Successor Parties in Central-Eastern Europe and Eurasia'. He is the editor of the bi-monthly *Ukraine Analyst*. He received a BA in Economics from the University of Sussex, an MA in Soviet Studies from the University of London and a PhD in Political Science from the University of Birmingham, England. He was a Post-Doctoral Fellow at Yale University.

**Maximilian Kuhn** is a research associate at the Center for Energy, Marine Transportation and Public Policy (CEMTPP) at the School of International and Public Affairs (SIPA), Columbia University, where he coordinates the EURASIA GAS 2030 Scenario Project. He also holds a visiting research associate position and is the chief editor of the EUCERS Strategy Papers at the European Centre for Energy and Resource Security (EUCERS), at the Department of War Studies, King's College London, as well as doctoral student at the Freie Universität Berlin, Germany, in the PhD program for *Caspian Region Environmental and Energy Studies (CREES)*. Prior to commencing his PhD, he worked in public affairs and institutional public relations, corporate PR and agenda setting. His current research focuses on energy and energy policy decision-making and future studies, such as scenarios for the Eurasian gas market for 2030 and the future of the Iranian natural gas sector. His academic work on the Eurasian gas market, the liberalization of the Turkish energy market and on unconventional gas has been published in specialized journals, and he has

contributed to and has been quoted in international media such as BBC World Service, *Der Spiegel*, European Energy Review and other media outlets specializing on energy.

**Mark Olsthoorn** is a visiting scholar from the Netherlands at the University of Maryland Center for Integrative Environmental Research. His research addresses cross-cutting public policy problems at the regional to international level related to energy and climate change impacts and mitigation. He holds a Masters degree in Aerospace Engineering from Delft University of Technology. Before coming to Maryland, Mr. Olsthoorn has worked at IMSA Amsterdam, an entrepreneurial consultancy for sustainability and innovation in Amsterdam, the Netherlands.

**Michael Stanton-Geddes** works in the energy and resources sector, providing economic and policy consultant services to institutions including the World Bank and multinational corporations. He worked in Washington, DC and Brussels, Belgium for Fleishman-Hillard, and conducted research in Morocco and the United States at the Center for Transatlantic Relations. He is a graduate of Tufts University and the Johns Hopkins University School of Advanced International Studies (SAIS).

**Frank Umbach** is Senior Associate and Head of the International Energy Security Program at the Centre for European Security Strategies (CESS) GmbH, Munich-Berlin & Associate Director of the European Centre for Energy and Resource Security (*EUCERS*), Department of War Studies, King's College London. He is an expert for energy, foreign and security policies with a regional expertise on Russia, the Caspian Region, Asia-Pacific (i.e. China and Japan) and Europe. Previously, he was head of the International Energy Security and Security Policies in Asia-Pacific Programs at the German Council on Foreign Relations (DGAP) in Bonn and Berlin; and worked before at the Federal Institute for East European and International Studies (BIOst) in Cologne; in the office of the NATO General Secretary in Brussels; and the Japan Institute for International Affairs, the institute of the Japanese Foreign Ministry. He has conducted consultancy work for the German Ministries of Foreign Affairs and Defense; European Commission and European Parliament, U.S. Departments of State and Energy, U.S.-China Economic and Security Review Commission

of the U.S. Congress, the Lithuanian Government, the Polish Foreign Ministry, the British House of Lords, NATO and the OSCE. He studied Political Science, East European History and European/International Law at the Universities of Marburg and Bonn. He is the author of more than 300 publications in 25 countries, he also publishes regularly for the “Geopolitical Information Service” ([www.geopolitical-info.com](http://www.geopolitical-info.com)). He co-authored the study “Strategic Perspectives of Unconventional Gas in Europe: A Game Changer with Implications for the EU’s Common Energy Security Policies”, EUCERS-Strategy Papers, King’s College, Vol. 1, No. 1, May 2011.

**Kirsten Westphal** is based at the Stiftung Wissenschaft und Politik (SWP), the German Institute for International and Security Affairs in Berlin, Germany, where she works in the section on International Energy Relations and Global Energy Security. Before, she was Assistant Professor for International Relations at the Department for Political Science at the Justus Liebig University in Giessen, Germany. She has been a consultant and scholarship holder in the energy industry and has worked in several EU and OSCE missions in Latin America, Eastern Europe, the CIS and Asia. She has published widely on international energy relations and EU external energy relations. Recent publications include *Global Energy Governance in a Multipolar World* (with Dries Lesage and Thijs van de Graaf); *The Energy Charter Treaty Revisited* SWP Comments 2011; *Internationale Energiebeziehungen (International Energy Relations)*, in: Wichard Woyke (ed.), *Handwörterbuch Internationale Politik*; *Solar Power from North Africa* (with Isabelle Werenfels) SWP Research Paper 2010; *Energy Policy in the USA* (with Stormy-Annika Mildner) in: World Energy Council, *Energy for Germany 2010*, p.16-44; and *Russian Gas, Ukrainian Pipelines and European Supply Security*, SWP Research Paper 2009.

# TRANSATLANTIC ENERGY FUTURES

STRATEGIC PERSPECTIVES ON ENERGY SECURITY, CLIMATE CHANGE  
AND NEW TECHNOLOGIES IN EUROPE AND THE UNITED STATES

DAVID KORANYI, EDITOR

How can Europe and the United States grapple with the energy questions of today and tomorrow? What drives energy policy decisions in Washington and in the capitals of U.S. states, in Brussels and in European countries? What will define their energy mixes in the future? What are the similarities and differences, convergences and divergences among the various energy sectors in Europe and the United States? What should be done to facilitate transatlantic cooperation in the field of energy from a political, diplomatic, institutional, commercial, regulatory and financial perspective? Is a transatlantic energy alliance desirable? Is it possible? What could be the goals, scope, shape and influence of such an alliance?
